café

1821

Welcome to Café 1821 which is part of Christ Church. We called this Café 1821 because there has been a church on this site since that date. Most of the people who work here are volunteers from the church. As a church we want to serve this town to the best of our ability and this Café is just one way in which we do that. For more information about us check out our website at www.christchurchsouthport.org.uk
